INDIA
Festivals

India is a land of festivals and fairs. Virtually celebrating each day of the year, there are more festivals celebrated in India than anywhere else in the world. Each festival pertains to different occasions, some welcome the seasons of the year, the harvest, the rains, or the full moon. Others celebrate religious occasions, the birthdays of divine beings and saints, or the advent of the New Year. A number of these festivals are common to most parts of India.

AVOCADO

A 100-gram (3.5-ounce) serving of avocado contains 485 milligrams (0.02 ounces) of potassium, according to the US Department of Agriculture. In comparison, a banana has 358 milligrams (0.01 ounces) of potassium per 100 grams. Monounsaturated fats are fat molecules with one unsaturated carbon bond, Drayer said. In simple terms, it's an unsaturated fat that works to lower LDL cholesterol without affecting the good HDL cholesterol, she added. Folate is a B vitamin that is important for proper brain function and healthy pregnancies, Drayer said.
